## ePay
## The Smart Way to Pay

Expand the capabilities of Enlyte's workers' compensation and auto bill review solutions through our fully integrated ePay application as your automated provider medical bill payment processing solution. Our ePay solution replaces inefficient paper-based payments, and is integrated in the bill review workflow, helping to expedite payment cycle times, and improve accuracy and consistency while reducing payment processing costs by 60% or more.

**60% or more**

According to our data, customers that have implemented an electronic payment solution successfully **reduced operational costs associated with paper payments by 60% or more.**

ePay is enhancing the medical provider payment experience through a unique opt-in model that extends additional benefit to both the payor and provider.

## Pay Smarter, Not Harder

**Adjuster Authorizes Payment**
in our ePay Bill Review System, integrated with clients claim system

**Payment Validation**
in claim system

**Claim System Transmits Data**
to ePay payment gateway

**Payment Is Remitted**
Payment and EOR is sent to the provider in form consistent with provider's preferences

**Payment Confirmation Is Sent to Claims System** modality and timing of payment transmission

## Streamline Your Payment Processes

**Covers Multiple Provider Payment Types**

- Check
- EFT/ACH
- Virtual Card

**Automates Payment Processing**

- Adjuster authorizes payment and ePay takes care of the rest
