Mitchell Connect, a collaborative workflow solution, simplifies communication between carriers and repair facilities and also manages day-to-day tasks and jobs.

Stay Connected from Anywhere On Any Device

Mitchell Connect is designed with multiple end-users in mind, whether it's for repair facilities, staff appraisers, or independent appraisers. This collaborative platform makes communicating with business partners easy through its knowledge sharing and messaging features.

Repair Facilities

Running a collision repair facility is more than just keeping your customers happy, it's also providing proper and safe repairs along with working closely with business partners like insurance carriers. Mitchell Connect can help organize your day-to-day tasks along with simplify your communication process with business partners.

Document Repairs

With Mitchell Connect's photo sharing functionality your technicians can now upload photos and supporting documentation of the repair through a phone or tablet in one easy-to-find location.

Track Repair History

Need a refresh of a previous repair? Repair records and important events are saved in the Activity Log allowing your technicians to access them anytime.

Communicate with Business Partners

From sending completed estimates to messaging your insurance carriers, Mitchell Connect is your one stop communication platform.

Insurance Carriers

Having a consolidated platform to communicate and collaborate with repair facilities both inside and outside of your direct repair network, staff, and independent appraisers is key to maintaining a consistent workflow.

Access Assignments on the Go

Appraisers on the road will be able to access and manage their assignments on their tablet or mobile device no matter where they are.

Appraise from Anywhere

Add photos, review or edit claim information to any estimate directly from Mitchell Connect. When paired with Mitchell Cloud Estimating, you can even scan and decode VIN directly from your iPad.

Simplify Communications

Mitchell Connect's claim journal feature enables private and public notes and conversations between IAs and repair facilities.

Seamlessly Integrate with WorkCenter

Not only can you easily access your estimating system from Mitchell Connect, you can also send completed estimates to WorkCenter.

Equipped with functionalities specifically built for each user role, whether you're inputting vehicle information in a repair facility, looking up the next assignment on the road, or drafting an estimate from your desktop, Mitchell Connect helps simplify your day-to-day tasks.

FEATURES:

User-Centric Design

Simple and sleek, Mitchell Connect's intuitive layout allows users to view key information from vehicle information to attachments, estimates, and more on one simple dashboard!

Seamless Photo Sharing

Upload images of the damaged vehicle through a smartphone or any internet connected device and document repair photos all in one organized and easily accessible location.

Easy Access to Estimating Solutions

Mitchell Connect integrates with various industry-leading estimating systems such as Mitchell Cloud Estimating. Giving you a shortcut to quickly launch your estimating platform.

Workflow Efficiency

Help your users stay updated with Mitchell Connect. Get instant email notifications when there is a new assignment or if there is an important update to the job made by the insurance carrier. With instant notifications and messaging means shorter cycle times and efficiency.

Repair Status Update

Set repair status updates throughout the repair process to help insurance carriers keep track of repair progress and cycle time.
