Workers' Comp

Press Release - Pam Gore Receives Beverley Boesch Legacy Award

May 12, 2020
2 MIN READ

Coventry is pleased to announce that Nurse Consultant Pamela Gore has received the 2019 Beverley Boesch Legacy Award again this year.

Beverly Boesch was a highly respected Registered Nurse within the workers' compensation industry who was instrumental in coordinating care and treatment for injured workers. The award in her honor was created in 2011 by IN TOUCH as a platform to recognize the outstanding commitment, care, and service performance of Nurse Case Managers working within the workers' compensation industry. Once again Pam Gore was selected to receive this award for her innate ability to go above and beyond in providing treatment and care to injured workers.

Pamela has been a Coventry Nurse Consultant since 2007 and manages various medical issues and coordinates with physicians to secure treatment plans for Maximum Medical Improvement (MMI). Pam is a four-time recipient of the In Touch Making a Difference Award (2014, 2017, and 2018), and also received their Excellence Award for Nurse Case Management in both 2011 and 2015.

"Pam consistently maintains the highest standard of excellence in her role, and we are thrilled that she is being recognized again for her dedication," said Vice President, Case Management & Nurse Triage, Jen Aube. "Her understanding of the needs of her injured workers and her ability to educate, engage, and coordinate care for their return-to-work demonstrates her excellence as a case manager."

About Coventry

Coventry offers workers' compensation, auto, and disability care-management and cost-containment solutions for employers, insurance carriers, and third-party administrators. With roots in both clinical and network services, Coventry leverages more than 35 years of industry experience, knowledge, and data analytics. Our networks, clinical solutions, specialty programs, and business tools will help you focus on total outcomes.
