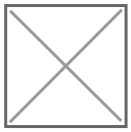
Ron Skrocki

Senior Vice President, Product Management & Development

Location: Wayne PA



A workers' compensation veteran with more than 30 years' experience in medical management, Ron Skrocki is a leading authority in disability management and medical bill review services.

As senior vice president of product management and development, Mr. Skrocki is an innovative trailblazer who is instrumental in developing analytics-driven, flexible medical management strategies that implement utilization controls and data support to meet the current needs of today's health care programs.

Prior to joining Genex in 2004, Mr. Skrocki held national level leadership positions in business and product development, sales, and operations. His vast industry experience spans the information technology sector specifically related to data management and systems development.

A proven leader with a strong track record of performance results, Mr. Skrocki is a well-regarded speaker and interview source, having been interviewed in many of the prominent industry publications and presenting at conferences such as the National Council of Self-Insurers.
