Wayne Krause

Director, Content Division

Wayne Krause is the director of the Auto Physical Damage Content division. He joined Mitchell in 1987 and has held numerous positions throughout his nearly 34 years with the company. His automotive industry experience spans more than 40 years and encompasses roles as technician, teacher, business owner and insurance claims expert. Considered an authority on most automotive topics including repair techniques and diagnostics, he is an active member of many industry boards and committees. Wayne is also the California state chair for I-CAR and an instructor in the Southern California region.
