Mitchell wins DoxTek Training Excellence Award

October 28, 2019
1 MIN READ

Mitchell was recently recognized by its partner DoxTek with the Training Excellence Award at their event Connexion 2019. Specifically, over the past year, Mitchell has invested in Hyland and ABBYY certifications enabling Mitchell's product teams to develop custom integrations for Hyland and ABBYY products with Mitchell products and to tune these applications to optimize their performance for our product workflows.

Mitchell Product Manager Ajay Awanti accepted the award on behalf of the Mitchell team at the event.

“Onbase and Flexicapture are key components of the new document management platform that Mitchell is developing,” Awanti said. “Our focus and commitment to the trainings and certifications that we have invested in this year have enabled Mitchell to seamlessly integrate Onbase and Flexicature with existing Mitchell products at scale.”

To learn more about the award, please read the press release on the DoxTek website.
