Workers' Comp

Combined Solution Maximizes Savings

MIN READ

Problem

A provider billed for a complicated diagnostic-related group (DRG) on a $204,517 facility bill.

Solution

A physician advisor reviewed the high-dollar bill as a part of the facility review, which is a component of the AuditPro product.

Outcome

The physician advisor found that the provider did not document any actual complications to validate a complicated DRG. The DRG was reassigned to a code for the same procedure without complications. This reassignment saved the client $18,364.

Physician advisor saved a client $18,364 on one facility bill
