

Workers' Comp

Combined Solution Maximizes Savings

Problem

A provider billed for a complicated diagnostic-related group (DRG) on a \$204,517 facility bill.

Solution

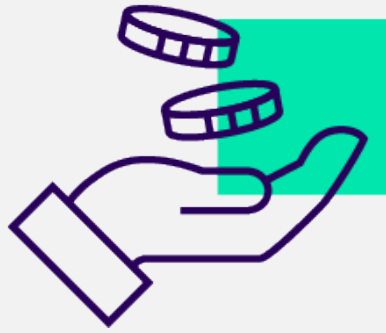

A physician advisor reviewed the high-dollar bill as a part of the facility review, which is a component of the AuditPro product.

Outcome

The physician advisor found that the provider did not document any actual complications to validate a complicated DRG. The DRG was reassigned to a code for the same procedure without complications. This

reassignment saved the client \$18,364.

Physician advisor saved a client **\$18,364** on one facility bill
