Kim Radcliffe, DHA, MHA, PT

Senior Vice President, Product Management

Kim Radcliffe, DHA, MHA, PT, provides clinical and strategic direction as senior vice president of product management of Enlyte Specialty Solutions. As a licensed Physical Therapist, Kim has over 25 years of experience in leadership within the health care industry, with a focus on evidence-based medicine and quality care. Kim has over 15 years' experience specifically in workers' compensation, having developed the largest prospective physical medicine network which included robust clinical oversight. She also serves as a national thought leader and frequent contributor to industry presentations and publications. Dr. Radcliffe received her Doctor of Health Administration from Medical University of South Carolina, her Master of Health Administration from University of North Florida, and her Bachelor of Health Science in Physical Therapy from University of Florida.
