Workers' Comp

A Comprehensive Guide to Outcomes-Based Networks

March 24, 2025
1 MIN READ

Unleash Optimal Results

Learn how Coventry's Outcomes-based Network (OBN) uses data to identify top providers, reducing costs, claim durations, and improving return-to-work outcomes for workers' compensation payers.

Inside the Guide:

- What makes an Outcomes-Based Network different
- How to channel to high-performing providers
- Real-world savings: 40–50% reduced claim costs and 25–35% faster return-to-work
- The data-backed advantage—over 11 million claims reviewed since 2009
- A checklist to help you capture every potential savings opportunity

Download the *Comprehensive Guide to Outcomes-Based Networks* and discover how strategic channeling, advanced analytics, and evidence-based care are reshaping the future of workers' compensation.
