Resilience Redefines Results

Event Details

Start: June 10, 2025 @ 12:00PM EDT [On-Demand](#) End: June 10, 2025 @ EDT [On-Demand](#) Location: [Online Event](#)

Resilience is a powerful factor in improving workers' compensation outcomes, from aiding recovery to enhancing return-to-work success. This webinar examines how resilience influences the mental and physical well-being of injured employees, enabling faster and more effective recoveries. Gain practical insights into strategies that empower employees, reduce the duration of claims, and foster workplace engagement after recovery. Learn how to integrate resilience into claims processes to build a supportive foundation for long-term results.
