## Chikita Mann, MSN, RN, CCM

**Senior Telephonic Case Manager**

In her article, "Managing Workers' Comp Claims for Older Workers," Chikita Mann, MSN, RN, CCM, addresses the unique challenges of handling workers' compensation claims for the aging workforce. She highlights that older employees often face longer recovery periods and a higher likelihood of complications due to age-related factors. Mann emphasizes the importance of early intervention, tailored return-to-work programs, and proactive communication to effectively manage these claims and support older workers in their recovery.?
