Complex case disputes can result in significant medical and indemnity costs despite efforts to fairly cover the injured worker's medical care and facilitate return to the job. At the same time, you need to guard against inappropriate treatment or potential abuse of the system. In the *PropertyCasualty360 article*, "Establishing a Quality IME Process for your Workers' Comp Claims," Mike Valasek, president of Med-Eval, and Steffen Nelson, president of OMAC, both divisions of Genex Services, explain why insurers are moving toward best-in-class IME company lists that include scorecarding several facets of care.

Did you know Genex is the fastest-growing national provider of IME services? Download this checklist to help ensure you are working with a true national provider!
