CMS Recovery Thresholds for Liability, No-Fault, and Workers' Compensation Insurance Settlements to Remain the Same in 2020

CMS has announced that beginning January 1, 2020, the threshold for physical trauma-based liability insurance settlements will remain at \$750. CMS will maintain the \$750 threshold for no-fault insurance and workers' compensation settlements, where the no-fault insurer or workers' compensation entity does not otherwise have ongoing responsibility for medicals.

This means that entities are not required to report, and CMS will not seek recovery on settlements, as outlined above. Please note that the liability insurance (including self-insurance) threshold does not apply to settlements for alleged ingestion, implantation or exposure cases.
