

Coventry Network Expands in Kansas and Missouri

We are pleased to share that Coventry has completed the necessary steps to expand our Coventry Integrated Network® through the integration of CompAlliance in Kansas and Missouri.

Benefits

While utilization may vary, we anticipate Coventry clients will achieve significant improvement in penetration and discounts given the integration of CompAlliance for Kansas and Missouri.

Penetration

Savings

The following provider types are part of this expanded network offering

Physicians

Facilities

Diagnostic Centers

Rehabilitation Centers

Occupational Medicine Clinics

The Coventry Integrated Network

- Largest directly contracted WC & Auto networks
- Dedicated contracting resources
- Workers' Comp and Auto-specific contracts
- Securing the best renegotiated rates
- Contracting focused on top out-of-network providers
- Proactive contract re-negotiation
- Leased network partnerships augment direct provider contracts

For more than 40 years Coventry has spent countless hours analyzing access, savings, geographic coverage, and developing strong relationships within the provider community.

As part of the Mitchell | Genex | Coventry organization, we are aligning our network contracting and operations, and continue to actively update and expand our network.

Coventry providers are credentialed to NCQA standards and backed by our Quality Assurance Team

Network providers receive education on state and network requirements

Dedicated Regulatory and Compliance Team ensuring various state regulations are followed

Exceptional Network Solutions

Broad-based | Certified | Specialty | Custom Outcomes-based | Telemedicine
